

**300,000 people die
every year from complications
of DVT.**

Are YOU at risk?

Deep Vein Thrombosis (DVT) is a blood clot inside a deep vein of the leg, blocking blood flow. This condition affects 600,000 people annually.

The Vasular Surgery Division at Anchor Health Centers, P.A., offers a revolutionary treatment of DVT with The Trellis™, yet another first here in Naples.
